### Project: 2013 Street Overlay Program

2012 **STREETS LEVY**

**What:** The City of Kirkland is pleased to announce that twice the linear feet of streets will be resurfaced this year thanks to Proposition 1, Street Levy. The contractor, West Coast Construction, will be working with the City of Kirkland for Phase I of the Overlay Program to repair curb ramps and concrete in preparation for resurfacing sections of seven streets in Kirkland. Since the contractor is starting at the south end of the City, and working their way north, the first street will be 108<sup>th</sup> Avenue NE - from NE 53<sup>rd</sup> St to NE 68<sup>th</sup> St. Many factors, including weather, can influence the actual work hours and anticipated schedule below.

- 108th Ave NE from NE 53<sup>rd</sup> St to NE 68<sup>th</sup> St – construction anticipated: April 8 thru late April
- State St from 5th Ave S to Kirkland Ave – construction anticipated: late April through mid-May
- NE 116th St from 98th Ave to NE 108th Ave NE – construction anticipated: early-May to mid-May
- NE 132nd St from 124th Ave NE to 132nd Ave NE – construction anticipated: mid-May
- NE 145th St from 100th Ave NE to Juanita-Woodinville Way – construction anticipated: mid-May to late-May
- Simonds Road from NE 92nd Ave to NE 100th Ave NE – concrete repairs by City crews in April-May
- 97th Ave NE from Juanita Drive NE to 120th St – no concrete repair

**When:** Construction activity is expected to start this week on 108<sup>th</sup> Avenue NE with completion anticipated by the end of April. The crosswalk at 108<sup>th</sup> Avenue NE and NE 53<sup>rd</sup> Street will be impacted as Americans with Disabilities Act improvements are made to the ramps and sidewalk and infrastructure for a future flashing crosswalk are installed at this location. Please follow crosswalk and sidewalk detour signs approaching the school. The contractor will have flaggers during school hours to facilitate pedestrians crossing 108<sup>th</sup> Avenue NE. Watch for signs of construction (such as no parking signs) posted prior to work commencing at specific locations.

All seven street sections are anticipated to be complete by the end of May. Specific schedule information is posted and updated periodically on the City's [Project Web Site](#). It is possible that construction schedules may change due to weather conditions. Typical hours of operation are Monday-Friday 7:00 am to 3:30 pm. Phase II, the resurfacing of the streets, is scheduled to begin in June and be complete in October of 2013.

**What to expect:** At times, the contractor will be restricting parking along the roadway. "No-Parking" signs will be posted 24 hours in advance of all parking restrictions. There may be inconveniences associated with driving or walking near the work zone; traffic control and flagging operations may be in effect. Emergency vehicle access will be maintained throughout the construction process.
